Subject: Building 4133, Area IV, Santa Susana Field Laboratory

Dear Mr. Rutherford,

The Radiologic Health Branch (RHB) was requested on October 28, 1999 to perform a confirmatory survey of the Santa Susana Field Laboratory Building 4133. After reviewing Boeing's survey data and subsequent survey report, ORISE survey results and associated data, and the results of the RHB survey, RHB concurs with the assessment that the structures known as Building 4133 are suitable for release for unrestricted use.

Enclosed is a copy of the RHB survey report for Building 4133. Please contact me or Steve Hsu of this office if you have any questions.

Sincerely,

Gary Butner, Acting Chief
Radiologic Health Branch
California Department of Health Services
